

Oracle University Workforce Development Program

Oracle University's **Workforce Development Program (WDP)** empowers colleges and universities to upskill students to the cloud, put their learning to practice, and future-proof their careers.

What is SLS?

Part of WDP, **Oracle Student Learning Subscription (SLS)** is an all-digital, all-online solution designed for colleges and universities to help students:

- Learn new **cloud skills** that today's employers demand.
- Gain **knowledge** with step-by-step demonstrations and real-world examples.
- Validate **skills** and showcase valuable Oracle credentials that employers respect.
- **Incorporate** SLS Learning Paths into college degree programs.

Why SLS?

If your student base aspires to learn on-demand cloud skills and become certified Oracle Cloud experts, SLS should be a central component of your existing educational offering.

SLS dynamic courses—complete with Oracle University courseware and Oracle software—add value and depth to every kind of learning program imaginable—from continuing education courses to college degree programs.

Key Cloud Roles

- **Administrators** – Cloud, Database, Applications
- **Analysts** – Cloud, Applications, Business Intelligence
- **Consultants** – Cloud, Applications, Infrastructure
- **Data Scientist**
- **Developers** – Cloud, Java, Database, Application, BlockChain

Why do students need Oracle Learning?

Because Oracle products are everywhere:

- Over 430,000 customers in over 175 countries benefitting from Oracle solutions.
- Learning Oracle Cloud skills can advance your career.
- Career opportunities range from Cloud Architects, Cloud Database Administrators, Data Scientists, Data Analysts, Machine Learning Engineers, Cloud-native Developers, Java Developers, and Application Developers.

SLS Cloud Tech Offerings: What's in it for you?

[Oracle Student Learning Subscriptions \(SLS\)](#) is an all-digital, complete learning subscription for **Oracle Workforce Development Partners** to purchase and distribute to each of your students.

Administer Oracle Cloud Infrastructure
Become an OCI Generative AI Professional
Become an OCI Data Science Professional Student Learning Subscription
Oracle Autonomous Database and Oracle Machine Learning Essentials
Business Intelligence on Oracle Cloud
Database Developer on Oracle Cloud (APEX)
Application Development on Oracle Cloud
Blockchain Development on Oracle Cloud
Java Development on Oracle Cloud
Become a Java Foundations Associate Student Learning Subscription
Java SE 21 Programming Student Learning Subscription
